

CASA PSYCHOLOGICAL SERVICES

Practicum Application

We have an additional application process to the Department of Psychology's assignment of students to clinical placements. The reason is simple: we are a private practice with specific needs and expectations. Our desire with practicum students is to accept senior students who have some preparation for one or more aspects of practice that match staff interests. Not being accepted for a placement with us may mean that your interests and skills simply are not a match for our office: it is not a judgement on your skills, abilities or potential.

Please provide the following information in the spaces provided and attach your CV:
